Aims and objectives

What are your aims and objectives in providing the regulated activities and locations shown in part 3 of this statement of purpose

By putting the patient first, the Practice aims to:-

1. Meet the needs of all our patients by understanding their conditions and involving them in the decision making, thereby encouraging more direct engagement in their treatment.
2. Provide the highest possible standard of primary care treatment for all our patients through consultations, examinations and treatment of medical conditions.
3. Produce a safe environment where confidentiality, privacy and dignity are respected at all times.
4. Provide those who are terminally ill with patient centred care in close liaison with other health care providers.
5. Manage chronic disease in a collaborative way with the patient.
6. Involve other care professionals to enhance patients' care.
7. Ensure that Patient care is central by providing ongoing training and development so that the Practice Team possess the necessary skills to carry out their duties.
8. Create an environment of shared learning and experiences for both clinical and non-clinical colleagues to provide on going improvements to patient care.
9. Promote healthy lifestyles to assist with the prevention of disease.
10. Reflect on our annual patient survey to improve the patient experience.
