BreatheEasy
British Lung Foundation
Support Groups

Breathe Easy Groups are support groups for people affected by lung conditions, including their friends, family and carers. These groups are run by members with help and support from the British Lung Foundation when its needed. Groups meet once a month and members arrange all kinds of things for their meetings, from talks on local patient services and advice from health care professionals, to arts and crafts and trips to the theatre or the seaside. Every group is different and the activities each one organises depends on what its members want and enjoy.

Feedback from the more recent groups set up in Clay Cross, south Normanton and Bolsover has been very positive with patients reporting:

- 50% feel more confident about managing my lung condition
- 33.3% feel more hopeful about the future
- 66.7% have more knowledge of what to do if they become unwell
- 50% feel more in control of their lung condition

A patient survey was carried out by North Derbyshire CCG during Jan to March 2015. Although the results were not as good as the previous survey we are still happy with the results.

These are a Selection of the Results:-

- 90% patients said the GP was good at explaining tests and treatments
- 86% said the GP involved them in decisions in their care
- 89% said the GP treated them with care and concern
- 100% had confidence and trust in the last GP they saw
- 96% said the nurse they saw was good at listening and giving them the time they needed
- 95% said the nurse was good at explaining test and treatments and involving them in decisions about their care.
- 76% were happy about the surgery opening times (Since this survey was taken we are now open alternate Tuesday evenings until 8 pm for GP and nurse)
- 88% described their overall experience of the surgery is good
- 80% found it easy to get through on the telephone
- 87% found the receptionists helpful and were able to get an appointment when they tried
- 82% said they would recommend this surgery to someone new to the area

We are still making changes to the appointment system to improve services for our patients
