

Flu: We Started our flu campaign on Saturday 29th September with a flu clinic in the Methodist church next door, since then the nurses have been holding regular flu clinics and have given the vaccination to people at risk when they come in for other clinics. We have now started sending out letters to people at risk who have not yet been vaccinated. If you are over 65 or have a chronic illness and have not yet had your flu vaccination please contact reception to make an appointment. If you have had your letter but do not wish to be vaccinated please let us know so that we can keep our records up to date.

Whooping cough (Pertussis): Because of the recent increase in cases of whooping cough and the greater risk to babies who are too young to be vaccinated we are offering the Whooping cough vaccine to all pregnant women from 28 weeks of pregnancy and to newly delivered mothers who did not receive the vaccination whilst pregnant. The practice nurses are giving the vaccine, you can make an appointment at reception. Please speak to your midwife if you have any concerns.
